THE GRAPE CURE,

A NATURAL Sick Headache and Dyspepsia Cure IN AMERICA,

IN AMERICA,

The crystallized salts, as extracted from grapes and fruit, a most wonderful product from Nature's laboratory. Have it in your homes and travels—a specific for the fagged, weary or worn out. It cures sick headache, dyspepsia, stomach and bowel complaints; removes biliousness, stimulates the liver to a healthy action, counteracts the effects of impure water and the excessive use of alcoholic beverages, and prevents the absorption of malaria. Supplies to the system the want of sound ripe fruit.

A day or two ago two gentlemen, residents of Boston, who had just arrived in the city overland from a trip to Oregon, applied to a physician for treatment, as they were suffering from some mysterious disease. One of them declared that he thought it was erysipelas, and taking off his hat, showed that his face and head were much inflamed and swollen, and his companion was suffering in a similar manner. The physician soon informed them that their platform indorsing woman the residuence of the Convention. The physician soon informed them that the trouble was not serious, being the effects of poison oak. They desired to know what that was, and were duly informed. One of the gentlemen produced a slip of paper from his pocket, and read off the wonds "buckeye," "manzanita," "chapar-ral" and "buckeye," "manzanita," "chapar-ral "chemise," and remarked: There's nothing about poison oak among aose, and we were told before we left Oregon to look out for those bushes if we did ny walking coming down, and given a them, as they were poisonous. Crossin up the hill, and recognizing them kept out of their way!" It seems, however, that they frequently caught hold of the poison oak to help in their climb, and, perspiring freely, rubbed their hands over their heads and faces. They will probably fight shy of roguish advice concerning poisonous shrubs

A good house greeted the Manfred-Pyke Opera Company last night. The public is awakening to the merits of this musical ombination. To-night, to-morrow night appears in the new conceit, "A Pair of Kids," supported by the C. D. Hess comedy company, including the Olympia Quartet. The piece introduces many airs from popular comic operas, and a variety of other nusical selections. We know nothing of the merits of the company, but it has had a good season in San Francisco, is spoken of as well-balanced, and Mr. Kendall, in the character of Jiles Button, as effectively natural, and inimitably humorous and mirth-provoking. The New Orleans Pica yune says: "The play, 'A Pair of Kids,' is a farce comedy, replete with funny situations, clever sayings and new business, which gives Ezra F. Kendall, the star, a wide scope to manifest his versatility. He is funny without any apparent effort, and his easy manner of acting seems to be a surprise to all, who laugh heartily while he so carelessly moves in the different comical scenes." The following resolution, introduced by Colonel Babcock, was adopted without a dissenting vote:

WHEREAS, This Convention has excluded from its platform a declaration in favor of woman suffrage, and it appearing that such exclusion may lead to misapprehension in regard to the opinions of the members of the Convention, therefore he if tion, therefore be it

Resolved, That we most emphatically declare
it to be our opinion that the immediate and unconditional enfranchisement of woman would
surely tend to the highest interest of the whole
people and forever put an end to the traffic in
intoxicating liquors, and that for these reasons
—as individuals—we will, at all times, use
every lawful and proper means to secure an
amendment to the Constitution of the State conferring upon women the right to vote.

an's Christian Temperance Union, an organization upon whose efforts the success of prohibition largely depended. She said favor of woman suffrage, and then dare not give expression to his sentiments in their platform, was a dishonor to the Pro-

hibition party; he did not deserve to be called a Prohibitionist. Other lady members, while not so siderable to say during the recess hour. and the attention of every male member was called to the following, the words of Miss F. E. Willard, as printed in the California Voice:

Prohibition is the highest essence of the modern spirit; it seeks a body that can authoritatively carry out its will. This it has found in a political movement which dedicates men to the proposition "The saloon must go." Out of this party, under changed name and widened platform, will come, as the final evolution of the century, woman's ballot as a temperance measure the necessary sequence of the restrict. century, woman's ballot as a temperance measure, the necessary sequence of the party's logic and the military exigency of its policy. The well-ordered home is the only true miniature of a well-ordered State. The temperance reform cannot reach its largest and most beneficent development while half the wisdom, more than half the purity, and nearly all the gentleness of human nature are unexpressed in the decisions of the ballot-box, the Court-room and the hall of legislation. A party to unify the North and South against that liquor power which is the sworn domestic foe of both is coming fast, to blot Mason and Dixon's time out of the heart as well as off the map, and give us not only a really re-United States, but "two heads in council" as well as "two beside the hearth," and, as the sequel of all this, an outlawed liquor traffic and a protected home. Bartholdi's statue of Liberty has a worn an's form, and depicts his mother's face. It will be lifted to its pedestal before the close of our first temperance century, and will symbolize liberty according to law.

"Not like the brazen giant of Greek fame, "Not like the brazen giant of Greek fame,
With brawny limbs astride from land to land;
Here at our sea-washed, sunset gates shall stand
A mighty woman, with a torch whose flame
Is the imprisoned lightning, and her name
Mother of Exiles."

To what shall she welcome the exiles from To what shall she welcome the exiles from less happy countries, with her calm, tender, motherly face looking out toward the unpitying sea in the countries to come? To a republic based on the idea of a protected home; to a system of education that extinguished Plutonian that it might light Promethean fires; to a gospel country where Christ reigus, not in form, but in fact, and where the liquor traffic shall no more hurt or destroy in redeemed America—the Holy Mountain of the Lord.

A PROHIBITION PARTY INDISPENSABLE. A large number of the delegates, espe-dially those who had been chosen for the ifferent offices, made speeches congratulating the party on the harmony that had prevailed during the session of the largest Convention of the kind ever held west of the Rocky Mountains. One of them said, and he seemed to express the sentiments of all, for "Amen" went up all over the Convention of the kind ever held west of the Rocky Mountains. AN UNUSUAL OPPORTUNITY.

Yesterday we placed on sale a lot of Men's White Knit Underwear, full-finished (i. e., the seams not sewed but firmly knitted together), and of a grade that usually sells_at \$2 50 per suit.

Watchfulness of the buying market permits us to offer this line at \$1 37 per suit of shirt and drawers. At this price we cannot afford to break suits.

If this announcement is read by the many who wear this kind of underwear, the moderate quantity on hand will soon be gone.

QUITE AS TELLING

An item as the above is Men's Tan-colored Undershirts and Drawers, in summer weights, at 75 cents each. Worth at least a third more.

How is this possible? The explanation is not uninteresting. These goods are striped with fine circular lines of red and blue, which by some oversight in the making do not meet where they should join ends. In the shirts this happens on only one side and under the arms. It's a defect which not one person in ten would notice. It doesn't affect at all the wear of the garments. It does, however, affect their commercial value. Hence, a third or more off regular prices.

This reminds us of an important item in Ladies' Underwear. A line of India Gauze Vests, good quality

at 25 cents. Ladies' Full-finished White Merino Vests, 75 cents. In previous seasons were not able to sell this quality under one dollar.

Pure Thread-silk Knitted Undervests, in cream, lilac, blue, cardinal, etc., \$3 50. Some in old gold, more closely knitted and ribbed \$4 and \$5 50.

There is a great deal being said at present about the new Wire Woven Bustles. This is in part because weight and coolness are being considered more and more as prime essentials in a bustle. There is no doubt but that many bustles are altogether too heavy, besides being heating and weakening.

By experiment we find that large Wire Woven Bustles, weigh 31/2 ounces. Sateen Bustles, filled with hair, weigh 4 ounces. Straw Bustles, pressed shapes, weigh 4 ounces.

The Sateen and Straw Bustles are the lightest we have other than Wire. Independent of weight the Wire Bustles are probably cooler than either, although we are selling large quantities of all three styles.

Our stock of Bustles is very large, including some fifteen different kinds in a countless number of shapes. Also, Hoop Skirts in complete assortment.

Sudden Death in a Saloon. San Francisco, May 13th.—A neat-looking and fairly well-dressed man en-tered the saloon at 1129 Dupont street this morning, and sitting down at a table ordered a glass of beer. He had hardly swallowed the beverage when he was seen to suddenly pitch forward to the floor, and when picked up was found to be dead. The Coroner, upon receiving notice of the fact, removed the body to the Morgue. Nothing was found upon the dead man which would lead to his identity, and it is supposed that he was a stranger here. He was a man of medium build, of sandy complexion and wore a heavy red mustach. ache. He was apparently about 35 years

The Wrestling Tournament-A Long-Winded Match. San Francisco, May 14th-A. M.-The econd and deciding wrestling match for the Pacific coast championship and a purse of \$250, took place last evening between Andre Christol and Samuel Matthews, the ictors in Wednesday night's matches. The ontestants were called to time at about 30 P. M., and one of the severest and best contested bouts ever fought in this city fol-lowed. The struggle lasted for three hours and twenty seconds, when a fall was won by Christol, amid loud cheers and applause. An intermission of twenty minutes was declared, when the match, which is two falls out of three, was resumed, and at this hour

For example, Cheap John d'inggists will offer you trash variousy styled "Capsicum," "Capsicine" or "Capucia" plasters, prefaced sometimes with the name "Benton's" or "Burton's." We earnestly caution the public against the whole tribe of them. They are absolutely useless as remedies for disease. To be sure they are cheap, but plain muslin is cheaper and just as efficacious. Ask for Benson's, watch the spelling, and look for the "Three Seals" trademark, and the word "Capcine," which is cut in the center of the genuine.

The mine continues to yield well, and the ledge at the bottom of the shaft, which is 300 feet in depth, is looking very well. The ledge is seven feet wide, and makes a good showing of gold. No drifting had been done at the bottom of the shaft when the mine was formerly operated, but drifts are now being run both ways from the shaft. In cleaning out the shaft it was found that an old drift existed 20 feet below the 180 foot level which Mr. Gauthier has opened, but it was wailed up at the distance of 20 feet from the shaft, and there is no knowledge existing as to how far it was extended by the former company, but it is evident that some very poor mining was done, as the miners run over the ledge, which was on the foot-wall, and set their timbers upon it to hold up the drifts, and never broke into the ledge at all. The prospects of the Crown Point continue as favorable as ever, the ledge both on the 180 and 300 levels being large and of excellent paying quality.

Is not possible when the blood is impure, and recovery from any ailment must be slow and uncertain while that condition continues. The Blood may be corrupted by the taint of Hereditary Scrofula, and the poisons of Mercurial and Contagious Diseases, and also by impurities implanted in it through excesses in living, improper food, derangement of the digestive and assimilatory organs, and other causes. The first external evidences of such vitiation are Blackheads, Pimples, Sties, Eruptions, and Boils. Yet more serious are the symptoms showing its internal effects in depression of the Spirits, Lassitude, Weariness without effort, Headaches, Dizziness, and enfeebled circulation. Be warned in time!

Ayer's Sarsaparilla Is the only medicine that will thoroughly purify the blood. In millions of cases, during nearly forty years in which it has been the best hope of humanity suffering from vitiation of the life-current, it has effected cures beyond the power of any other remedy. Leading physicians know its composition from the most powerful alteratives, diureties; and tonics, and prescribe it in their practice.
